**BROWSER:** HTML, CSS, JavaScript, jQuery, Bootstrap, Materialize, Skeleton.

**API:** APIs (several), JSON, AJAX, Real Time Cloud Database via Firebase.

**DEV TOOLS:** Heroku, Git, GitHub, GitHub Pages.

**DATABASE:** MySQL, MongoDB, JawsDb.

**SERVER SIDE:** Templating Engines, Sessions, Writing Tests, Node.js, Express.js,  
Creating APIs, MVC, User Authentication, ORM (Sequelize), Postman.

**CS Fundamentals:** Algorithms, Data Structures.

**NEW Development:** React.js

## PROJECTS

**Weather Forecaster** | **Repository:** <https://github.com/MrBusiness87/Weather-Forecaster> |  
**Deployed:** <https://mrbusiness87.github.io/Weather-Forecaster>

- This application uses an API called Open Weather Map to display information necessary to reach the end result. My end result is when you search a city in the search bar it will show you the weather at that searched location for that day and then a 5-Day Forecast.
- A single person project which used an API to display particular information.
- Languages: HTML, CSS, JavaScript, jQuery.  
Tools: Open Weather Map (API), GitHub, Git, VSCode.

**Your Kitchen** | **Repository:** [https://github.com/MrBusiness87/Your\\_Kitchen](https://github.com/MrBusiness87/Your_Kitchen) |  
**Deployed:** <https://your-kitchen.herokuapp.com>

- A web-based application that uses several technologies to provide the user with a convenient place to keep track of their cooking ingredients and suggested recipes, by creating an account.
- My main responsibility on this project was to make sure that the proper information was gathered from the API, Spoonacular, was available for use to the rest of the application.
- Languages: HTML, CSS, JavaScript, jQuery, MySQL, Sequelize.  
Tools: Spoonacular (API), bcrypt.js, express, express-session, passport, passport-local, GitHub, Git, VSCode.

**QUIZ GAME** | **Repository:** <https://github.com/MrBusiness87/QUIZ-GAME> |  
**Deployed:** <https://mrbusiness87.github.io/QUIZ-GAME>

- This game is a simple way to test what your basic knowledge is of coding. You have 120 seconds to play, 5 questions, each wrong answer will deduct 5 seconds from the timer. At the end the game will let you know what your score is, also displayed by green and red circles of the box containing the quiz.
- A single person project which used JavaScript to create questions and store information.
- Languages: JavaScript, CSS, HTML.
- Tools: GitHub, Git, VSCode.

**Employee Directory REACT | Repository: [https://github.com/MrBusiness87/Employee\\_Directory\\_REACT](https://github.com/MrBusiness87/Employee_Directory_REACT) | Deployed: [https://mrbusiness87.github.io/Employee\\_Directory\\_REACT](https://mrbusiness87.github.io/Employee_Directory_REACT)**

- Using a database website to display employee information in a legible and easy format. The application: tells user which employees are over age 65, search by employee names, button added to reset the list to its previous state.
- A single person project which used REACT and AXIOS to gather and display information.
- Languages: JavaScript  
Tools: Axios, Bootstrap, React, React-Bootstrap-Table, React-Dom, React-Router-Dom, React-Scripts, Testing Library: Jest-Dom, React, User-Event.

**My Portfolio REACT | Repository: <https://github.com/MrBusiness87/My-Portfolio> | Deployed: <https://mrbusiness87.github.io/My-Portfolio/>**

- Using REACT to create a portfolio showcasing some of my work, a short description about me, and displaying my skill in design of web pages.
- A single person project which used REACT and no CSS Framework to create a comprehensive Portfolio.
- Web Page was deployed through git hub pages as a different way of deploying React Pages without using Heroku to host the page.
- Languages: JavaScript  
Tools: React, React-Dom, React-Scripts, GH-Pages, Testing Library: Jest-Dom, React, User-Event.

## EXPERIENCE

**Delivery and Technology Specialist Manager  
Johnson Lexus of Raleigh**

Sept 2016 – Present  
Raleigh, NC

Setting of team schedules and training of new team members to provide an exceptional Lexus experience, following up with users to ensure satisfaction with delivery and to build a long-term relationship. Providing team members with tools for personalizing and overseeing a users first interaction with their new vehicle, utilizing all resources and applications to assist in product information support.

*Key Accomplishments:*

- Development of easy to read pamphlets for particular things that are FAQs, so that a user can feel empowered to perform some tasks on their own without the need to call for troubleshooting.
- Developing an understanding of the operating systems in vehicles over several years so there is no need to cross-reference, instead an answer can be provided on the spot.

**General Manager  
Taco Bell Inc. (Luihn Foods)**

Jan 2016 – Sept 2016  
Knightdale, NC

Ensuring that all team members complete all necessary tests and certifications in a timely and efficient manner. Facility Maintenance, Researching, Developing, existing and current, team members to ensure all standards are exceeded or met. Keeping up with continuous training to be acclimated to the latest information available and improve staff and user relations.

*Key Accomplishments:*

- Full knowledge of brand specifics for people who may have allergies or adverse interactions with certain foods.
- Attain user knowledge so that each user is receiving the latest information and greatest product interactions.
- Lessened time between user input and user retrieval of product.

## EDUCATION

**Coding Bootcamp Certificate:**

**University of North Carolina at Chapel Hill, Chapel Hill, NC**

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

**Bachelor's in General Business Administration:**

**North Carolina Central University, Durham, NC**

A program that is focused on instructing the entire hierarchy of a business, from Product Development to Production, and then leading through all the major branches like Marketing, Sales, and Distribution. Expanded the understanding of the flow of Business.
